EXPERIMENT

PCR for ASO-mCherry and ASO-ORCA Construction

BRANCH	DATE	EXPERIMENTER
ASO	2026-09-19	Hansen Zhang

Experimental Summary

Phosphorylated primers were used for PCR amplification of DNA fragments for ASO-mCherry and ASO-ORCA construction.

Results

> PCR amplification failed. Primer stock solutions had mistakenly been added instead of working solutions during reaction setup.

PROTOCOL

M01: PCR
