EXPERIMENT

Culture of Plasmids for Off-Target Assays

BRANCH	DATE	EXPERIMENTER
Fundamental	2026-08-12	Xiaoyu Que

Experimental Summary

Bacterial cultures carrying PUF10, PUF12, PUF12-132D, PUF-only, APOBEC-only-GGGS, and APOE4-GGGS-his were prepared for plasmid extraction for off-target assays.

Results

The six cultures were prepared for the plasmid extractions performed on August 13.
