EXPERIMENT

Reconstruction of Reporter Accessibility Variants

BRANCH	DATE	EXPERIMENTER
Reporter	2026-09-04	Hansen Zhang

Experimental Summary

The reporter accessibility variants were rebuilt by gel recovery, homologous recombination, transformation and plating after the failed attempt.

Results

RepOpen A/B material proceeded to sequencing submission on 5 September.

PROTOCOL

M02: Agarose Gel Electrophoresis and Gel Extraction

M04: Homologous Recombination

M05: Transformation & Plating
