EXPERIMENT

Construction of the PUF-Flag-only Empty Vector

BRANCH	DATE	EXPERIMENTER
Fundamental	2026-08-13	Xiaoyu Que

Experimental Summary

The PUF-Flag-only empty-vector construct was prepared by PCR, DpnI digestion, gel purification, homologous recombination, and bacterial transformation.

Results

Assembly, transformation, and plating were completed.

RELATED PROTOCOLS

M01: PCR; M02: Agarose Gel Electrophoresis and Gel Extraction; M03: Restriction Enzyme Digestion; M04: Homologous Recombination; M05: Transformation & Plating.
