EXPERIMENT

RNA Processing and Failed PCR of the Editor-Gradient Samples

BRANCH	DATE	EXPERIMENTER
Reporter	2026-09-24	Hansen Zhang

Experimental Summary

RNA was extracted from the reporter-editing experiment, reverse transcribed and subjected to PCR.

Results

No PCR band was detected. The amplification was repeated with new primers on 26 September.

PROTOCOL

M10: Reverse Transcription

M01: PCR

M02: Agarose Gel Electrophoresis and Gel Extraction
